# Why Logistics? Why Now?

## Explosive Market Growth:

The global supply chain management market is projected to **grow from \$25.7 billion in 2022 to \$72.1 billion by 2032—a 10.9% CAGR**. As e-commerce expands and automation takes over, this is the perfect time to get involved.

## Tech Takes the Lead:

**85%** of industry leaders are already integrating AI and automation into logistics—making AI a game-changer for the future of logistics management. **51%** view AI as essential for improving efficiency.

## Sustainability Matters:

**48%** of businesses are prioritizing sustainability. In this eco-conscious era, logistics careers are key to shaping a greener world.

## Navigating Economic Change:

With freight volumes expected to rise by just **5%** in 2024, **trucking companies** are evolving to meet changing demands—creating new opportunities for **innovative thinkers** in logistics.
